Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the present application:

Listing of Claims:

1 – 29. (CANCELLED)

30. (PREVIOUSLY PRESENTED) A method for arranging and playing a media presentation, comprising:

receiving a selection of a plurality of media objects to be included in a media presentation;

receiving configuration instructions for ordering the plurality of media objects in the media presentation;

generating a media package comprising the selected media objects in said order;

identifying a trigger event to be associated with the media package;

generating an association list;

associating said trigger event with said media package in said association list; and

transmitting the media package and said association list to a wireless communication device for storage on the wireless communication device.

31. (PREVIOUSLY PRESENTED) The method of claim 30, wherein the trigger event is a call processor event.

32. (PREVIOUSLY PRESENTED) The method of claim 31, wherein the call processor event is a call ended event.

33. (PREVIOUSLY PRESENTED) The method of claim 31, wherein the call processor event is a call dropped event.

34. (PREVIOUSLY PRESENTED) The method of claim 31, wherein the call processor event is a call received event.

35. (PREVIOUSLY PRESENTED) The method of claim 34, wherein the call received event is a voice call received event.

36. (PREVIOUSLY PRESENTED) The method of claim 34, wherein the call received event is a paging call received event.

37. (PREVIOUSLY PRESENTED) The method of claim 34, wherein the call received event is an SMS message received event.

38. (PREVIOUSLY PRESENTED) The method of claim 34, wherein the call received event is a text message received event.

39. (PREVIOUSLY PRESENTED) The method of claim 30, wherein the trigger event is a key press event.

40. (PREVIOUSLY PRESENTED) The method of claim 30, wherein the trigger event is a wireless device status event.

41. (PREVIOUSLY PRESENTED) The method of claim 40, wherein the wireless device status event is a low battery condition event.

42. (PREVIOUSLY PRESENTED) The method of claim 40, wherein the wireless device status event is a no carrier received event.

43. (PREVIOUSLY PRESENTED) The method of claim 30, wherein the trigger event is a position location event.
